## UCCS GENDER INCLUSIVE RESTROOM DIRECTORY

Building	Directions to gender neutral restroom
Academic Office Building	Use stairwell A, which is located by the front entrance and elevator, to go to the bottom floor. There are two gender-neutral restrooms right next to the elevator and stairwell, to your left as you exit the stairs.
Alpine Field	Four gender inclusive restrooms in the building near middle field. These are only accessible when the field is open for use.
Centennial Hall	The gender-neutral restroom in centennial is located on the first floor, right next to room 111. Find the western most staircase, which is nearest to the university center, and head into the building (away from the parking lot). The restroom will be immediately on your left.
Columbine Hall	There are two gender-neutral restrooms on each floor of Columbine hall. As you enter the building from the pedestrian spine, head towards the left into the office wing of the building. As soon as you enter the wing, there will be a hallway breaking off of the one you enter in with the two gender neutral restrooms. There are two gender-neutral restrooms in this position on each floor of the building.
Cucharas House	If you go past the set of gender segregated restrooms, by the classrooms, on your right there will be a set of two gender neutral restrooms.
Ent Center for the Arts	One gender inclusive restroom on first floor past the reception desk and to the right. Three gender inclusive restrooms on the second floor, one on the right when you walk up the stairs; another gender inclusive restroom is down the hall and to the left of this one. The third gender inclusive restroom on the 2nd floor is taking the far stairs in the main lobby on the left, up the stairs and down the hall.
Family Development Center	The two restrooms that are attached to the entry room are single occupancy.
Gallogly Events Center	There is a "family restroom" in the hallway on the north side of the gymnasium floor (away from the entrance from the plaza). It is located by the gender segregated restrooms and I.T. closet, which will be down the hall to your right as you enter from the gymnasium.
Innovation House	As you enter through the front door, turn right and the bathrooms will be down the hall on your left. Neither are gender segregated.
La Plata House	As you pass the reception desk and elevator, the gender-neutral restroom will be to your left.
Monarch House	As you're facing the reception desk, there is a door to your right. The gender-neutral restroom is through that door, to your right. <b>You may need a valid key/id card to get through this door.</b>
Osborne Center	As you enter the building from the pedestrian spine, if you turn 90 degrees to the right you will be a big sign designating wing A. Walk straight past this sign, and there will be two rooms on the right labeled "shower". These rooms are unlocked and have toilets and sinks inside, as well as showers, and as such are effectively gender-neutral restrooms.
Rec and Wellness Center	Four gender inclusive restrooms. One on first floor between binary restrooms near the front. One gender inclusive restroom between binary bathrooms on the second floor near the stairs. Two family changing rooms (Private restrooms and showers) on first floor by the pool.
Roaring Fork Dining Hall	The gender-neutral restroom is located between the men's and women's restrooms.
Sustainability House	A gender-neutral restroom is located directly to your right as you enter the building through the front door.
University Center	To get to the third floor take the elevator or stairs or elevator up from the area between the doors to the pedestrian spine. The gender-neutral restroom will be off to your right, on the right side of the hall right after the women's restroom.
University Hall	In the I.T. resource rooms (right next to the hall of fame on the first floor) there is a gender neutral restroom. It is technically room 106A, so if you go to room 106, you will be able to find it from inside 106.
